

## DATASHEET

# RightFax<sup>®</sup> MFP Module 2.5

Quickly and Easily Integrate Network Faxing with MFPs from Hewlett-Packard, Sharp and Xerox

### OVERVIEW

The RightFax MFP Module integrates RightFax with MFPs from Hewlett-Packard (HP), Sharp and Xerox, enabling organizations to rapidly implement a consolidated solution for faxing, printing, scanning and copying. The RightFax MFP Module also gives users easy access to the extended delivery and notification options of RightFax Enterprise or Business Servers directly from their MFPs, allowing organizations to improve the efficiency and security of document delivery while reducing costs.

### BENEFITS OF THE RIGHTFAX MFP MODULE

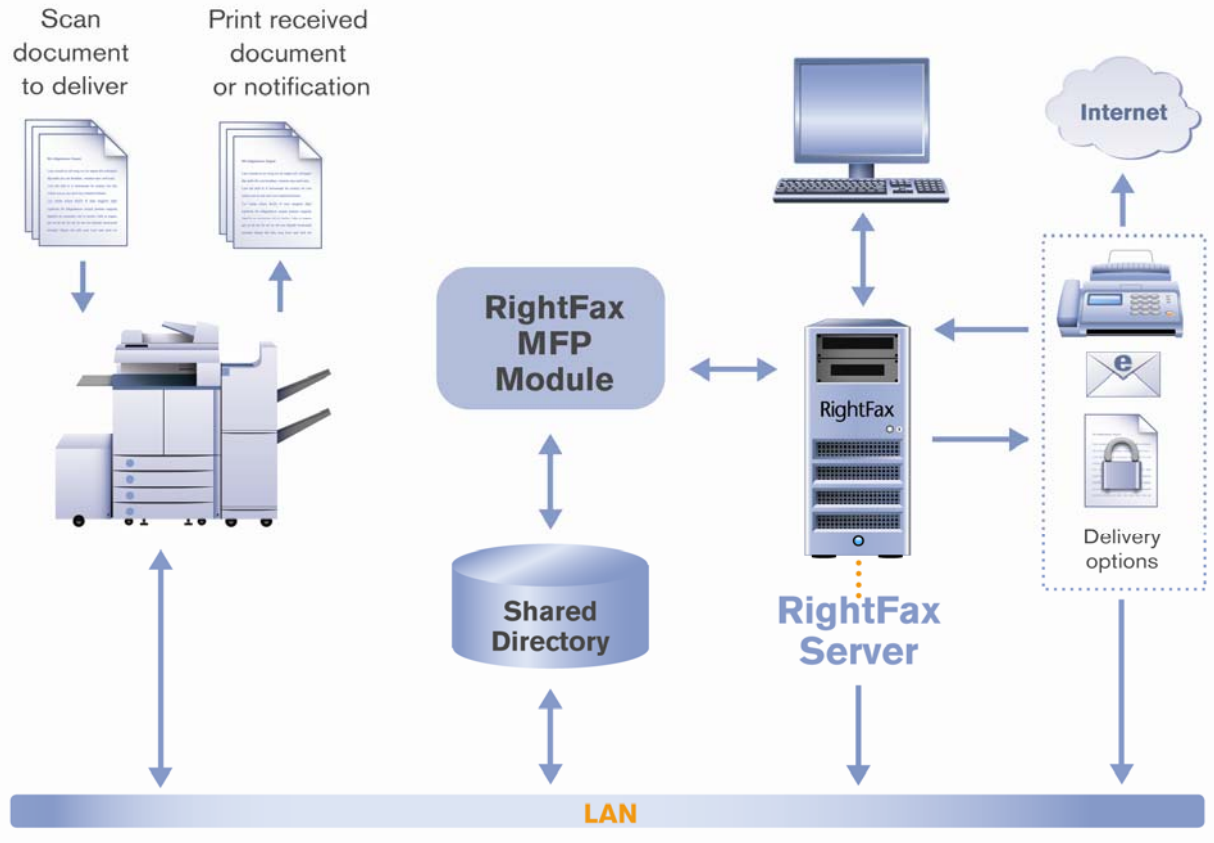

Companies gain significant benefits by using the RightFax MFP Module to integrate network faxing capabilities with their MFPs.

Benefits	Outcome
<b>Reduced Total Cost of Ownership (TCO)</b>	Organizations can rapidly integrate and adopt RightFax with MFPs and other business applications to maximize investments. It further reduces TCO by allowing organizations to simultaneously support multiple MFPs from HP, Sharp and Xerox on a single RightFax Server.
<b>Increase productivity and efficiency</b>	Users can print, scan, copy and fax from one consolidated device to save time and improve workflow processes.
<b>Enhanced security and compliance</b>	RightFax provides tamper-resistant document delivery, as well as options such as certified or encrypted email delivery to safeguard privacy and support compliance.
<b>Proven reliability</b>	Long-standing partnerships and tested integrations with HP, Sharp and Xerox ensure tight, reliable integrations and industry-leading functionality.
<b>Simplified integration</b>	Organizations can streamline deployment of an integrated faxing solution so users can begin faxing documents from their MFPs more quickly.
<b>Data consolidation</b>	In contrast to MFPs that are not connected to RightFax, all information about outbound documents sent from an MFP is captured into the same location as faxes sent from the desktop, allowing integrated reporting with much less work.

## HOW IT WORKS

The RightFax MFP Module offers tested and proven extensions for HP, Sharp and Xerox MFPs, providing a streamlined approach for integrating network faxing across an enterprise. Powerful and practical document delivery options can be tailored to a wide range of applications and environments.

## RightFax MFP Module Information Flow

## FEATURES

The RightFax MFP Module integrates the powerful faxing capabilities of RightFax Enterprise or Business Servers\* with MFPs. Some of the features include:

Features	Results
<b>Extensible integration platform</b>	A flexible, extensible integration platform enables rapid deployment and provides access to scalable fax services including fax delivery, logging, tracking, cover sheets and notifications.
<b>Configuration wizard and management tools</b>	The RightFax MFP Module configuration wizard streamlines deployment. In addition, extensive administrative and management tools ease deployment and management of MFP integrations.
<b>Extended document delivery options</b>	Users gain both easy walk-up access and a central point of control for electronic and hard-copy faxing as well as options for certified or encrypted delivery.
<b>Email attachments</b>	Users can email documents as PDF attachments.
<b>Notifications</b>	Fax delivery notifications can be customized, and users can take advantage of notification options including email to sender, print back to device and network directory drop.

Features	Results
<b>Thumbnails</b>	Users view a first-page thumbnail of an outbound fax to make it easy to track and identify faxes.
<b>RightFax user accounts</b>	RightFax user accounts can be accessed at the MFP. For example, users can access their RightFax user preferences so that when they identify themselves at the device, their preferences are automatically applied.
<b>Logging</b>	All data and actions for a fax can be logged for audit trail and accountability.
<b>Secure and encrypted delivery options</b>	Documents can be delivered as secure or certified email directly from the device using the Enterprise Suite to safeguard data integrity and support compliance.
* The availability of certain RightFax Business Server and Enterprise Server features are dependent on specific MFP capabilities. Please consult information on individual integrations with HP, Sharp and Xerox for details.	

## REQUIREMENTS

- RightFax Enterprise or Business Server 9.0 or higher with the latest service pack
- One RightFax MFP Module is required per RightFax Server with an active license for each MFP device (HP, Sharp and Xerox)
- Encrypted and certified delivery options require the Enterprise Suite
- Please consult your MFP vendor representative for any vendor software requirements

## SUPPORTED MFPs FOR THE RIGHTFAX MFP MODULE

To reduce costs and streamline deployment, one RightFax MFP module can simultaneously support multiple MFPs on a single RightFax Server. The module is licensed per RightFax Server and supports the following MFPs:

HP	SHARP	XEROX
<ul style="list-style-type: none"> <li>• LJ4345 MFP, LJ4730MFP, LJ9040 MFP, LJ9050 MFP, LJ9500 MFP</li> <li>• 9200c Digital Sender</li> </ul>	<ul style="list-style-type: none"> <li>• AR-M237, AR-M277, AR-M355N, AR-M455N, AR-M550N, AR-M620M, AR-M700N, DM 3551/4551, MX-2300N, MX-2700N, MX-3501N, MX-4501N</li> <li>• AR-M236, AR-M276, AR-M351N, AR-M451N</li> </ul>	<ul style="list-style-type: none"> <li>• Xerox WorkCentre Pro 165/175, WCPro 232/238/245/255/265/275, WCPro 2128/2636/3545 Color, WCPro Color 32/40, WCPro 35/45/55, WCPro 65/75/90, WC Pro 7132/7655/7665</li> <li>• Xerox Document Centre 240/255/265ST, DC 425/430/432/440, DC 460ST/470/480/490, DC535/545/555</li> </ul>
