

SELECT, SCAN and SEND with Sagem-Interstar's Connector for eCopy ShareScan OP

FASTER & EASIER FAXING FOR MFPs AND COPIERS

Scan and transform your paper documents into electronic ones for faxing. The Sagem-Interstar Connector for eCopy ShareScan OP, designed to work with our LightningFAX® and XMediusFAX® fax server software, enables users to easily fax documents from multi-function printers (MFPs) and digital copiers networked on a PSTN- or VoIP-based infrastructure.

1. SELECT XMEDIUSFAX

At your MFP or copier, simply select XMediusFAX for automated faxing.

2. SCAN YOUR DOCUMENT

Scan and preview your document, the fax coversheet and the sender/recipient information. The user-friendly eCopy ShareScan OP captures fax coversheet data,

and automatically merges sender and recipient information for faxing through your Sagem-Interstar fax server.

3. SEND YOUR FAX

After you send your fax, return to your desk, where you will receive a fax transmission status report in your email inbox – no need to wait beside your fax device. And with Sagem-Interstar's fax server, inbound faxes are sent to your email inbox for handling like any other electronic document on your PC.

ADVANCED FAXING OPTIONS

Extend your faxing power with:

- Active Directory integration
- Addition of users to the phonebook
- User login
- Failed-fax resubmission from your PC

Target Industries

- Healthcare
 - Government
 - Education
 - Finance / Mortgage
 - Legal Providers
 - Service Providers
 - Technology / Manufacturing
- and more . . .

Benefits

- Accelerates and streamlines document management
- Creates audit trails to facilitate regulatory compliance (e.g., HIPAA and SOX)
- Greatly reduces telecom, long-distance and fax hardware costs
- Rapid ROI
